MasteringChemistry

If you bought the new book (package from the bookstore):

1. Look for a cardboard insert labeled “MasteringChemistry” in your packet. Inside, it should have an access code that should look like

   Example
   SIMPLE-FRILL-TONLE-WEIFS-CHOIR-FLEES

   If you slip says “Introduction to Research” or anything other than “MasteringChemistry,” the factory put the wrong slip in. Take it back to the store to get a valid access code.

2. Go to www.masteringchemistry.com
   Clik on “New Student” and then “Yes, I have an access code.”
   Read and accept the licensing agreement.

3. Follow the instructions and enter your access code.
   If it asks you which book, DO NOT TRY TO ENTER OUR BOOK! The questions in MasteringChemistry come from Tro “Chemistry: A Molecular Approach, 1e” If you enter this wrong, you will still have access to the homework, so don’t worry. When it asks you for your ID, enter your RUID (the number that looks like a social security number). If we can’t figure out who you are from your information, you will get zero credit for the homework!

4. The school’s zip code is 08854 and the course ID is C161SU10B3B4

5. If you see a page like

   ![Image](image)

   then you have done it correctly. There is a practice assignment. Do it.
If you bought a used book:

1. Go to www.masteringchemistry.com
   Click on “New Student” and then “No, I need to purchase access online now.” You should get a page like the one below.

   [Image of the Mastering Chemistry website]

   **Register for MasteringChemistry™**

   **Step 1: Do you have an access code?**
   A student access code is a printed code supplied inside the MasteringChemistry Student Access Kit (and sometimes by other means) if your instructor requires you to use MasteringChemistry. A student access kit may have been included with the purchase of your new textbook.

   [Options: Yes, I have an access code. No, I need to purchase access online now.]

   **Step 2: Tell us which book you’re using:**
   Scroll & click to select:

   [List of book options: General, Organic, and Biological Chemistry; Chemistry; Chemistry, A Molecular Approach, 1st edition; Molecular Chemistry; Molecular Chemistry, 2nd edition; Molecular Chemistry, 3rd edition.]

2. Select the book (see picture above). The book you select really doesn’t matter. The questions come from a different text than you are reading from, but the system doesn’t care. “Chemistry: A Molecular Approach” by Tro, but if you pick the wrong book, nothing bad will happen.

3. You do not need the eBook (you may select it, but it’s more expensive).
4. Accept the licensing agreement and you should get a screen like

![Product Selection](image)

You probably do not have a Pearson account, so click “No” and proceed.

5. The school’s zip code is 08854 and the course ID is **C161SU10B3B4**

6. If you see a page like

![Welcome Screen](image)

then you have done it correctly. There is a practice assignment. Do it.
